

LUCAS DE BRITO

iOS and Front End Developer

OVERVIEW

I'm a Front-end and iOS developer born in Brazil. Always have been a fanatic for cool interfaces and designs. I have almost 5 years of experience as graphic designer and 1 year with iOS development in the Apple Developer Academy. Today, I'm always looking for new opportunities to see cool stuff and always interested about new experiences. My favorite programming language are Swift and Javascript. I'm also very interested, (and currently working on it) in scalable web application using NodeJS.
